Are you able to fuse left brain/right brain thinking within a single concept?

Are you a known techie?

Are you an artist?

Are you are ready to be an nFocus Software designer?

Our challenge is to present a broad spectrum of data and information in a way which is aesthetically pleasing and promotes intellectual insight.

Your challenge is to assist our marketing department and software designers to conquer this challenge.

We are looking for a creative, above-average professional to develop and manage the company online and print marketing efforts and content management site - someone who can embrace our core values of candor, results, integrity, excellence, and a sense of urgency.

Essential Duties and Responsibilities include the following. Other duties may be assigned.

- Conduct graphic/multi-media integration and coordinate electronic multi-media program production.
- Design and develop 2D/3D graphics.
- Design, develop, and implement web-enabled, interactive, multi-media programs.
- Maintain content, develop new pages, and enhance functionality of company website; ensure and manage overall quality and consistency of website.
- Handle all design for printed, electronic, and online communications including, but not limited to: print collaterals, tradeshow graphics, and additional in-house marketing materials as directed by company president.
- Work with all departments and company president to create materials to fulfill goals of company.
- Work creatively on small print jobs as well as large challenging projects.

REQUIRED EDUCATION:

- Bachelor's degree AND three (3) years web-based graphics design experience
OR
- Associate's degree and four (4) years web-based graphics design experience.

REQUIRED EXPERIENCE:

- Demonstrated experience with HTML
- Proficient (1) year with Silverlight, Photoshop, Illustrator, Publisher, PowerPoint, etc.
- Demonstrated ability developing high-end websites
- Exceptional graphics skills with websites and web-based applications

Other Requirements:

- Willing to submit to required background check.
- Possess a basic knowledge of photo processing and digital imaging.
- Possess a basic understanding of interactive design.
- Able to communicate in a professional, positive, courteous manner at all times with all levels of customers, clients, vendors, visitors and employees.
- Able to apply problem-solving techniques.
- Able to work independently and/or cooperatively and effectively in a team environment.
- Ability to work with minimal supervision as part of an integrated and dispersed team.
- Self-motivated with ability to establish priorities and effectively manage time to complete multiple tasks within specified timeframes.
- Able to work quickly and accurately under pressure.
- Organized and detail-oriented with a strong sense of urgency.
- Ability to engage in continuous learning.

Benefits:

- Paid vacation
 - Paid sick time
 - Paid holidays
 - Health insurance
 - SIMPLE IRA with company match
 - Ancillary benefits available
- *Relocation expenses not covered
